046	Saw Lead	soft lead
047	Sine Lead	soft lead
048	Pulse Lead	soft lead
049	Koto	bright lead
050	Saw a Pulse	Sequence

Please note that sounds marked with * were designed by connecting the RIGHT AUDIO OUTPUT into the EXTERNAL AUDIO IN. Simply connect a jack plug and you should see the external input in the mixer OVERLOAD with these patches. The feedback loop that is created by connecting the right audio output with the external audio in generates nice overtones :)

number	name	category
051	Metal MW Nse	sound fx
052	Brass Lead	bright lead
053	Moogy Seq	sequence
